

# 2.26 SAFE ARRIVAL OF CHILDREN

QUALITY AREA 2 | VERSION 1.23

## PURPOSE

This policy provides a set of guidelines and procedure for keeping children safe while travelling between LEVNT EC Services and other education or early childhood services.

## POLICY STATEMENT

### VALUES

LEVNT EC Services are committed to:

- the safe arrival of children during travel between an LEVNT EC Service and another early childhood service.
- ensuring the health, safety, and wellbeing of children at all times, conducting risk assessments and ensuring authorisations are obtained from parents/guardians.
- providing adequate supervision of all children during the travel between an LEVNT EC Service and another early childhood service.
- promoting road safety education and safe active travel for children.

### SCOPE

This policy applies to the Approved Provider, persons with management or control, nominated supervisor, persons in day-to-day charge, early childhood teachers, educators, staff, students, volunteers, parents/guardians, children, and others attending the programs and activities of LEVNT EC Services, including during offsite excursions and activities.

### BACKGROUND

The Education and Care Services National Regulations mandate that approved providers establish policies and procedures regarding the safe travel of children who travel between an educational service and any other educational or early childhood service, for example from a kindergarten service to a long day care service.

Ensuring the safety and wellbeing of children in Early Education and Care (ECEC) services is the utmost priority, and approved providers and ECEC services must take necessary steps to safeguard children from potential harm or dangers, especially during their travel to and from the service.

Particular attention should be given to the transportation of children, especially during peak traffic times and high foot traffic periods. Protecting children during their journey between the service and other educational settings can be accomplished by preparing comprehensive policies and procedures, along with an effective implementation process.

## DEFINITIONS

The terms defined in this section relate specifically to this policy. For regularly used terms refer to the Definitions file of each LEVNT EC policy folder.

**Adequate supervision:** (In relation to this policy) supervision entails all children (individuals and groups) in all areas of the service, being in sight and/or hearing of an educator at all times including during toileting, sleep, rest and transition routines. Services are required to comply with the legislative requirements for educator-to-child ratios at all times. Supervision contributes to protecting children from hazards that may emerge in play, including hazards created by the equipment used.

Adequate supervision refers to constant, active and diligent supervision of every child at the service, including during travel from one service to. Adequate supervision requires that educators are always in a position to observe each child, respond to individual needs and immediately intervene if necessary. Variables affecting supervision levels include:

- number, age and abilities of children
- number and positioning of educators
- current activity of each child
- areas in which the children are engaged in an activity (visibility and accessibility)
- developmental profile of each child and of the group of children
- experience, knowledge and skill of each educator
- need for educators to move between areas (effective communication strategies).

**Attendance Record:** Kept by the service to record details of each child attending the service including name, time of arrival and departure, signature of person delivering and collecting the child or of the nominated supervisor or educator.

**Regular Outing:** (In relation to education and care services) means an excursion such as a walk, drive or trip to/from a location that the service visits regularly as part of its educational program, and where the circumstances covered by the risk assessment are the same on each trip. If an excursion is a regular outing, an authorisation from parents/guardians is only required to be obtained once every 12 months. A new authorisation is required if there is any change to the circumstances of the regular outing.

## RESPONSIBILITIES

The Approved Provider, persons with management and control, nominated supervisor and/or persons in day-to-day charge are responsible for meeting requirements set out in the table below. Actions which are legislated requirements of the ECEC sector are indicated with LR.
